The opponents to capital punishment said it was admitted (1) that the principal object of punishment is for the protection of society and (2) the state has no right to administer retributive justice, that is, to punish a person because he deserves it. The third and the only remaining question, is then whether it is necessary or expedient to execute in order to protect society. It was shown that there were formerly too offenses which were punished by leath and gradually the list has been not down. The general tread is for the idvocates of life imprisonment pleaded for a two years' trial of their law to show that death is not necessary to protect society.

The two passibles, Mr. Enright told of the disgust and loathing with which the people of Windsor look upon the taking of human life. He was bitterly opposed to the death sentence, on the ground that the crimes are committed in moments of influentian.

The Rev. J. Hall Long made the most extended speech of the evening, in which he quoted figures freely, tending show that where life imprisonment had been substituted for the death penalty, crimes had increased. The Rev. Mr. Bishop said he wanted the criminals placed where they never will have a chance to commit the crime again. "I ask you to take care of the innocent," he said. "I sak you to guard the lives and honor of men and women." He thought that the trouble with our law now is that we do not follow criminals

## NEWBRO'S HERPICIDE

MISS MILDRED HOLLAND

The Charming and deservedly Popular Theatrical Star, writes as follows:

"I am delighted with Newbro's Herpicide. It is just what I have been looking for. I find that it not only prevents gandruff, but that it stops the hair from falling out. It is a most delightful hair dressing, and no lady's toilet table is complete without it. (Signed)

"MILDRED HOLLAND."

A woman to be pretty must have pretty hair. There is a subtle charm about beautiful hair that lends more to personal adornment than all of the skill of all of the "beauty doctors" combined. The hair need not be of extraordinary or abnormal length, but it must have that distinctiveness of appearance that comes from intelligent care, and is the result of perfect hair health.

The most cultured ladies in every community use Newbro's Herpicide; and when you see a head of hair that glistens with beauty and is radiant with life, it is a fairly good indication that Newbro's Herpicide has

A common cause of duliness of the hair is the presence of fine dust and soot in the streets that is kept in constant motion by trolley ears, automobiles, etc. This fine dust - frequently len with disease germs-adheres to the hair and dulls its nat-

ural luster.

A delightful way to elemes and beautify the hair is to moisten a cloth with Newton's Herniciple and draw it carefully through the hair, taking one small strand at a time. It may be done daily, or less often, as desired.

The result of this clean-sing process will prove a supprise, not only in the amount of dirt removed, but in the added beauty of the hair and the sense of cleanliness and comfort that follows. Shampooing will also remove this dust, but too requent washing of the hair is harmful.

Newbro's Herpicide is the Original remedy that "kills the dandruff germ." It eradicates dandruff and stops falling hair. It is the only real scalp prophylactic in existence. A delightful and refresaing hair dressing. Stops itching of the scalp almost instantly.
